

## FlyingWheels - Metallbau Emmeln

### Details

FlyingWheels by Metallbau Emmeln available for sale!

FlyingWheels is a tower-shaped ride, offering up to 4 different movements to entice visitors. The 13.5 m (44 ft) tower consists of 2 wheels which rotate like a ferris wheel on a diameter of only 3.45m (11 ft)!

Each wheel has 3 gondolas, which fit up to 6 people for a total capacity of 36 passengers. The gondolas can be made to rotate around their own axis manually, and during the up-and-down motion around the tower's axis.

More information available upon inquiry.
