

## Apollo - Schwarzkopf

### Details

The Apollo ride has been built twice by Anton Schwarzkopf and currently reconstructed into a swinger (chair-o-plane) offering seats for 60 passengers.

With the 18-meter diameter of the "moon" and the total height of 24 meters, the ride is a great sight just as itself. It is occupied with 60 seats but can also be operated with 30.

Total footprint required for the ride is 35 meters in diameter.

Transportable in 8 transports.

<b>Manufacturer</b>	Schwarzkopf GmbH
<b>Seats</b>	60
<b>Aerial footprint</b>	Ø 35 m / 115 ft
<b>Diameter (moon)</b>	Ø 18 m / 59 ft
<b>Weight</b>	80t kg / 160t lbs
<b>Power</b>	35 kW
<b>Model</b>	Park model
